- Professional Certified Coach, International Coaching Federation

HUDSON CERTIFIED

Hudson Institute of Coaching sets the standard for coaching training and has been providing developmentally based coach development for more than thirty years.

CHIEF STRATEGY OFFICER

Amy has worked on guiding people through learning and change throughout her career in the financial services industry. Her direct experience leading teams and enabling thriving cultures provides her with a rich understanding of the unique challenges leaders face. She supports executives on their growth journeys with challenge, compassion and excellence, and is passionate about helping them drive long-lasting organizational success.

ABOUT AMY

Amy joined Bloombase to partner with people who share her passion for growth and transformation. Her career includes building healthy leaders, teams and cultures, most recently as an executive in the financial services industry. In 2022, she leapt from the corporate world, grateful for over 25 years of experience in operations and strategy. The calling to be a coach was impossible to ignore and Amy chose to build on her experiences in life and leadership to serve as a catalyst for other leaders.

A leader's journey is incredibly unique, personal and wrought with complexity. Amy's own such journey has given her fervent appreciation of compassionate challenge and perspectives from trusted partners. She works from an understanding that a leader's ability to make positive impact is dependent on a deep self-awareness and care for the whole person. She approaches her life and coaching with the attitude that the more challenging an issue is, the more opportunities to learn!

Amy loves to create culinary delights for the heart and palate for people she adores. She brings her curiosity and care to exploring new cultures and people, and she thoroughly enjoys making a mess when she tries new hobbies like pottery or gardening. Her home is filled with boys and a spunky Labradoodle who keep her laughing and learning about herself.

THE COACHING PRACTICE

Growth happens in hard spaces. And deep growth happens in relationships where there is a partner with you in those hard spaces. At Bloombase, we don't avoid the hard, we embrace it as our greatest learning ground. It's not an easy journey. It's yours to own, and you don't need to do it alone.

We are your catalyst as you close the gap between where you are now and your maximum potential. Bloombase coaches challenge you to investigate, explore and tackle your most important work. We create an environment of trust that allows you to take risks and explore new ways of being that infuse your energy and innovation.

BLOOMBASE

Bloombase is a catalyst for meaningful, transformative development that creates positive, sustainable impact. Bloombase diagnoses, designs, develops and delivers custom development experiences. These experiences focus on development at the individual level, the team level, and the organizational/systems level.
